MEETING OF THE FAMILY GROUP (FGC) SOCIAL AND COMMUNITY SUPPORT

OSONA 2022

HOW AND WHEN THE TECHNIQUE APPEARS IN OSONA

The Regional Council of Osona and the UVIC, decided after participating in the social work day in 2016, to organize a workshop about this technique with the trainer Martina Erpenbeck. In this workshop there was the participation of professionals from the EAIA de l'Alt Empordà and CRAE Albera, who explained their experience with the technique in some of the applications they had made.

Later, in the same year 2016, the need to go further and deeper arose with this intervention technique and from the Children and Family Area of the County Council, the Motor Group was created to develop a training and implementation project this technique. This group is made up of professionals from SSB, specialized social services and one of these people carries out coordination tasks.

In 2017, the first training edition in this technique was launched. Since then, about 50 professionals from SSB and specialized services in the area have been trained in this technique.

WHAT FUNCTIONS DOES THE ENGINE GROUP HAVE?

IMPLEMENTATION AND DIFFUSION

o Dissemination to the services of the region: EAP /CSMA I CSMIJ/ Health/ CDIAP/ Education: educational centers, conferences, proper practices examples, internal dissemination of professional teams

o Participation in Congresses, Conferences and other professional spaces

o Training other teams

o Realization of the project

o Creation of a web page and contact forms

o Leaflets for professionals/families

o Political and technical recognition

o Get a quote

EVALUATION

♣ material created by ourselves

♣ results of ALL the cases after one year: risk indicators list

♣ diffusion

♣ Professional dedication time in each RGF

Professionals who are part of the Motor Group have acted as facilitators/coordinators at different RGFs; mainly there have been cases of childhood and adolescence, some of them within the protection system (family foster homes, some admitted to institutions...), but we also have had elderly people cases. Not all the derived cases have ended with the Final Meeting, but it has been possible to move energies and create synergies that have improved many concerns that had been explained in the derivations.

From the beginning of the creation of the Motor Group, the trainer and publicist Martina Erpenbeck, has been creating the net between different people who knows the technique and has been bringing them together to join a large network, thus giving birth to the Catalan Group.
